# Md. Nafijur Rahaman

Full Stack Developer | Building Dynamic & Responsive Websites |
Django, JavaScript, React, Node.js,PostgreSQL
Dhaka, Dhaka, Bangladesh

## Summary

I am a passionate Full Stack Developer with a strong foundation in
programming and web development, actively building responsive,
user-friendly web applications. I enjoy both front-end and back-
end development, and I'm committed to creating seamless digital
experiences and scalable solutions.

My Journey:
Currently, I'm enhancing my skills in programming and development
through Phitron, where I am gaining hands-on experience with
various modern technologies.

I am currently studying Computer Science and Engineering (CSE) at
Bangladesh University of Business and Technology (BUBT), where I
am deepening my understanding of core computer science concepts.

I've also actively participated in programming contests, which have
sharpened my problem-solving skills and my ability to think critically
under pressure.

Technical Expertise:
Front-End: HTML, CSS, JavaScript (React)
Back-End: Node.js, Express, Django
Databases: SQL, PostgreSQL
APIs & Web Services: RESTful APIs
Version Control: Git, GitHub

Responsibilities & Approach:
Throughout my career, I've been responsible for:
- Designing and developing dynamic, high-performance web
applications
- Optimizing code for scalability and maintainability
- Collaborating with cross-functional teams to ensure projects are
delivered on time and meet user requirements

- My coding philosophy revolves around writing clean, efficient code that addresses complex challenges while keeping the user experience at the front.

Let's Connect:
I am always looking to connect with fellow professionals, collaborate on exciting projects, and contribute to initiatives that make a real impact. Feel free to reach out!
